

# Release Notes: Version 5.2.13.24787

Release Date: 05 Dec 2017

## What's New

1. This build is only applicable to customers using the email and/or web activity features of MarketWide. There is no reason to upgrade from 5.2.13.24732 if not making use of these features.

## Fixed Issues

1. Fixed problem that occurred when processing duplicate confirmations from Hurricane MTA server.
2. Web Activity tracker now trims URLs that are too long to be stored in database.
